Welcome to Louisville Community Acupuncture!

We have been providing safe, affordable acupuncture for the Louisville area since 2014. We primarily treat in a group setting for at least a few reasons. It allows us to see more people easily and make acupuncture more affordable. The group setting also encourages your engagement in a collective space for healing. Covid made this latter variable extremely difficult for our business model in 2020, but we are pushing through, and we want to reassert the value of healing together.

Our initial influence for community acupuncture developed out of working at and visiting other community acupuncture clinics and much of the model employed there was crafted by the Community Acupuncture Network (CAN) which later evolved into the People's Organization of Community Acupuncture (POCA). We loved their aims of making acupuncture more accessible and affordable to the communities they operated in and it is a goal we constantly strive for.

We charge on a sliding scale of \$25-\$50 per treatment in the community room. You pick what you pay on the scale, which might sound confusing but shouldn't be. There is no need to prove your income or financial situation. Allow it to provide you with some flexibility and maintain treatment plans. Acupuncture often takes more than one visit. We have some private room treatments available at a flat fee of \$65 on certain days (please see the schedule). All new clients have an initial paperwork/consultation fee of \$10 on their first visit.

General Acupuncture Treatment Tips and Clinic Awareness (please initial)

___ Wear a mask while in the building—we have some available if you did not bring one

___ Turn those cell phones off while in the clinic

___ Anticipate being here for 45-75 minutes

___ Avoid wearing scented products as many people come into our space through the day

___ Don't come starving

___ Wear clothing that can let the acupuncturists get to your elbows and knees

___ **Be considerate of the space. It is for everyone who enters, not just one person**

Please bring a friend and spread the word of health and community. By supporting this clinic, you are participating in making the benefits of acupuncture accessible to more people.

We are happy you are here!!!

INFORMED CONSENT TO TREATMENT

I, the undersigned, hereby request and consent to treatment by acupuncture and/or other procedures within the scope of the practice of acupuncture. Methods of treatment may include, but are not limited to, acupuncture, moxibustion, cupping, electrical stimulation, herbal therapy, bodywork, and nutritional counseling.

I am hereby informed that the aforementioned treatment methods are all generally safe but that there may be some side effects or risks, as follows

Acupuncture may potentially cause temporary bruising, swelling, bleeding, numbness and tingling, or soreness at the site of needling. Highly unlikely risks of acupuncture include lung puncture (pneumothorax), nerve damage, organ puncture, and infection - although Louisville Community Acupuncture uses only sterile, disposable needles and maintains a clean and safe environment.

Potential risks of moxibustion include blistering, burns, and scarring. Common side effect of cupping and gua sha are temporary bruising and redness lasting a few days. Cupping can also cause blistering of the skin in some instances.

The herbal and nutritional supplements (which may be from plant, animal, or mineral sources) recommended to me by my practitioner are generally safe in the traditionally recommended doses. Possible side effects of herbs include nausea, gas, stomach ache, diarrhea, and headache. Unusual side effects of herbs include vomiting, rashes, hives, and tingling of the tongue. I understand I must stop taking any herbs and notify my acupuncturist if I experience any discomfort or adverse reaction.

I will notify the acupuncturist should I become pregnant or if I am in the process of trying to get pregnant as certain acupuncture points and herbs are contraindicated during pregnancy and could induce miscarriage.

I understand that I can discuss risks and benefits further with my practitioner before signing if I so choose, although I do not expect my practitioner to be able to anticipate and explain all possible risks and complications of treatment. I rely on the practitioner to exercise his or her judgment in my best interest during the course of treatment, based upon the facts then known.

I fully understand that there is no implied or stated guarantee of success or effectiveness of a specific treatment or series of treatments.

I understand that my acupuncturist may review my medical records and lab reports, but all my records will be kept confidential. My health information will be handled in accordance with the Summary of Privacy Practices document that has been provided to me, and of which I have acknowledged receipt.

In signing this form, I acknowledge any inherent risks, and give my consent for treatment; payment and healthcare operations received, incurred or carried out at this practice.

CONSENT FOR EMAIL CONTACT

Risks of using email

Transmitting patient information poses several risks of which you should be aware. You should not agree to communicate via e-mail without understanding and accepting these risks. The risks include, but are not limited to, the following:

1. The privacy and security of e-mail communication cannot be guaranteed.
2. Employers and online services may have a legal right to inspect and keep e-mails that pass through their system.
3. Email is easier to falsify than handwritten or signed hard copies. In addition, it is impossible to verify the true identity of the sender, or to ensure that only the recipient can read the email once it has been sent.
4. Emails can introduce viruses into a computer system, and potentially damage or disrupt the computer.
5. Email can be forwarded, intercepted, circulated, stored or even changed without the knowledge or permission of Louisville Community Acupuncture or the patient. Email senders can easily misaddress an email, resulting in it being sent to many unintended and unknown recipients.
6. Email may be permanent. Even after the sender and recipient have deleted their copies of the email, back-up copies may exist on a computer or in cyberspace.
7. Use of email to discuss sensitive information can increase the risk of such information being disclosed to others.
8. Email can be used as evidence in court.

Although we will endeavor to read and respond promptly to your email, we cannot guarantee that any particular email will be read and responded to within any particular period of time. Thus, **you should not use email for medical emergencies or other time-sensitive matters.**

Emails about medical issues may be made part of your medical record and may be seen by staff with authorized access. **Email communication is not an appropriate substitute for clinical assessments.** You are responsible for following up on emails and for scheduling appointments when warranted. If your email requires or invites a response and you have not received a response within a reasonable time period it is your responsibility to follow up on this.

I, _____, **consent** to making contact with authorized employees of Louisville Community Acupuncture for the purposes of communicating personal health information (PHI) via e-mail.

or

I, _____, **decline** the use of e-mail communication with authorized employees of Louisville Community Acupuncture for the purposes of communicating personal health information (PHI) via e-mail.
